HOME PATERNITY TESTS

DNA SOLUTIONS was the first company to offer home collection kits for paternity testing back in 1997. This allowed people for the very first time to take their own samples, and mail them in for processing, allowing for rapid and cheaper testing.

LEGAL PATERNITY TESTS

Unlike the Home paternity tests, legal paternity tests require us to take your samples, witness your identification and use a passport sized photo on your paperwork to ensure identity of who we are testing.

The result from a legal paternity test will be recognized and accepted by law courts and government departments.

EXPLANATION OF THE TESTING

In general, the DNA of individuals is similar, however there are small regions that demonstrate variability. Parentage testing is based on comparing these variable regions from each of the people involved in the test.

The DNA extracted from the Mother's sample is compared with that from the child. Any DNA the child has that the Mother does not have MUST come from the biological Father. We compare this with the sample from the nominated Father. If this does not contain ALL of the DNA, he is excluded as being the biological father.

If the DNA does match, we then calculate the likelihood of a person chosen at random from the population, having the same genetic makeup at the sites we have examined. A close blood relative of the putative father (e.g. brother) may have a similar chance of paternity if not excluded. We there recommend that in the situation where putative fathers are close blood relatives, both are tested when possible.

The testing process takes about 8 - 12 working days to complete once we have received all samples. In cases where only a single parent is tested, a pre-natal sample is used, or the putative Fathers are close relatives, it may result in a longer time-frame to report the results, as additional work is often required.

A copy of the report will be issued to all *adult participants* or their representatives. The paying *participant* will receive the original report and all other parties will receive a copy. The report will not be released until the test has been paid for in full. Please note we can send out accounts for government departments requesting DNA tests.

Should you have any further questions in relation to this test, please contact DNA SOLUTIONS.

DNA PATERNITY TEST COSTS

The legal paternity test is \$299 for father, mother and child (or just father and child).

For each additional child, or another possible father you need to add \$175.

Our home paternity tests (our non-legal tests) are between \$189 and \$489, which are excellent value considering that we test 16 regions of DNA in each person (\$189), or we can test an amazing 23 regions of DNA in each person (\$489), being the only laboratory in the world to test more than 16 informative regions of DNA in each person.

DNA SOLUTIONS - The company

Rest assured with DNA SOLUTIONS accreditations, qualifications and experience. DNA SOLUTIONS has been performing paternity tests for over 12 years with qualified scientists and doctors. To date we have carried out over 70,000 DNA tests, and boast a state of art DNA facility with cutting edge DNA analysis techniques and equipment.

- ISO 17025 certified DNA testing laboratory.
- 12 years of paternity testing, having performed over 70,000 tests.
- Qualified and experienced scientists
- State of the art DNA testing facility
- online chat support 22/hours a day in English, Spanish, German and French.

OTHER RELATIONSHIP TESTS

DNA SOLUTIONS also has a variety of other relationship tests, such as brother to brother, sister to sister, grandparent to grandchild, twin zygosity testing, etc.

Please contact us to discuss any other biological relationship tests.

USING THE FORMS (next pages)

The next 3 pages contain the forms for the Legal Paternity Test. If the father is not being tested with the mother, then you will need two copies of the next 3 pages (3 pages for each person). If you are all having your samples taken together, then you only need one lot of forms.

Each person being tested will need to have two passport sized photos.

Call us on 888-900-9040 for the location of the nearest collection center.
